

Greenville County Bird Club Trip Report

Date: Saturday, April 19, 2014
Location: Lake Conestee Nature Park, Greenville, SC
Leader: Chip Gilbert
List & Narrative: Chip Gilbert
Duration: 7:00 A.M. - 10:50 A.M., covering 2.5 miles
Photographs: Included photos were taken recently before this outing by Anthony Martin (Prothonotary Warbler) and Lisa Jenkins (Red-bellied Woodpecker).
Species Total: 49

Two brave Club members ventured into the park even with the chilly wind and morning mist. However, the battle with the rain and muck was worth the highlight of really good close looks at the male Prothonotary Warbler. He is

still in the same area around the posts mentioned in recent emails. Both Great Horned Owl fledglings remain and were spotted. They are still in the same area and were huddled side by side on a limb, seeming to dislike the weather more so than the birders!

Species List:

Canada Goose
