

# Greenville County Bird Club Trip Report

**Date:** Saturday, September 10, 2016  
**Location:** Wilson Farm  
**Event:** Group Outing  
**Leaders:** Donnie Coody  
**Species List & Narrative:** Donnie Coody  
**Species Total:** 45 species  
**Logistics:**

Eight club members had an outing at Wilson Farm in great weather. With no fronts passing for the past week, only 42 species were found on the farm, with few migrants. A few others were seen during the rendezvous at Hardees in Travelers Rest. After the visit to the main part of the farm, three members went to another area of the farm and were treated to several White-eyed Vireos calling to each other.

## Species seen or heard during the visit to the main part of Wilson Farm – 37

Great Blue Heron	White-eyed Vireo	Cedar Waxwing
Green Heron	Yellow-throated Vireo	Black-and-white Warbler
