

Greenville County Bird Club Trip Report

Date: April 8, 2017

Location: Rocky River Nature Park, Dobbins Farm, Fork School Road

Leader: Jeff Click

We had another good outing to Rocky River Nature Park again this spring, once again getting several good looks at our target species, American Bittern, as well as hearing its unusual call. Some club members continued after Rocky River to briefly visit the ponds at Dobbins Farm and the bridge at Fork School Road. List below.

73 total species

Canada Goose	Tree Swallow
