

Greenville County Bird Club Trip Report

Date: June 3, 2017

Location: Brevard area and the Blue Ridge Parkway, NC

Leaders: JB Hines and Jeff Click

Several GCBC members enjoyed our annual trip to the Brevard area, to the Pisgah National Forest along US-276, and several stops along the Blue Ridge Parkway south of Asheville. One unexpected find was a female Common Merganser on a pond in Brevard.

Species List (75 total)
