

Greenville County Bird Club Trip Report

Dates: January 10, 2009

Locations: Lake Conestee Nature Park, Greenville, SC

Leader: JB Hines

Comments: ***Trip photos follow species listing**

The "Lakes of Greenville County" outing on Sat. Jan. 10 was well attended (15 part.) in spite of the cold, overcast weather. Our species count was probably lower this year, in part due to lower numbers of waterfowl in the area. Our best bird of the day was a Horned Grebe found on Lake Robinson. We also saw 2 or 3 Herring Gulls which are fairly uncommon at this location. The following species list includes two species(*) seen on the ride back to the meeting area. Let me know if there are any omissions.

Thanks
JB Hines

Bird List: Species:

P-b Grebe
Horned Grebe
G-b Heron
C Goose
