

## Greenville County Bird Club Trip Report

**Date:** September 10, 2006

**Location:** Wilson's Farm, Greenville County, SC

**Comments:** Six members of the Greenville County Bird Club visited Wilson's Farm on Sunday, September 10th and experienced a very pleasant morning of birding. This was my first visit to this privately owned wildlife preserve and I was impressed with the variety of habitats here and the beauty of the farm. Although there have been impressive reports of fall migrants from the NC mountains, we found very few migrants. A list of 43 species follows.

- JB Hines
