

## Greenville County Bird Club Trip Report

**Date:** April 28-29, 2007

**Location:** Western North Carolina – Stecoah Gap

**Comments:** I have just returned home from a very pleasant weekend of birding in the mountains of western NC. We had beautiful weather and an exceptional turn out with 18 participants on Saturday and 14 on Sunday. The 20 species of warblers were the highlight for the trip. We had great views of most of the warblers on the list and also saw a good number of birds on or around their nests.

Good birding,  
JB Hines
